Career Objective

Enthusiastic and self-driven Computer Science graduate aspiring to begin my career as a **Software Developer / Full Stack Developer**. Equipped with practical knowledge of **React.js**, **Node.js**, **RESTful API development**, and a strong foundation in **Data Structures and Algorithms (DSA)** and **Object-Oriented Programming (OOP)**. Passionate about building efficient, scalable, and user-friendly web applications while continuously learning modern technologies and best development practices. Eager to contribute to a collaborative and growth-oriented tech environment.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

COER University, Roorkee, India

Jul 2023 – Jul 2027

CGPA: 9.12 / 10.0

Relevant Coursework: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Software Engineering

Intermediate (Class XII)

Shardein School, Muzaffarnagar, India

Apr 2022 – Apr 2023

Percentage: 78%

Highschool (Class X)

Shardein School, Muzaffarnagar, India

Apr 2020 – Apr 2021

Percentage: 89%

Core Competencies

- Java, RESTful APIs,
- React.js, Node.js, Express.js, JavaScript
- MySQL, MongoDB
- Data Structures, Algorithms, OOP,
- Version Control (Git, GitHub)
- Responsive Web Design, UI Fundamental
- Problem Solving, Analytical Thinking, Communication

Technical Skills

- **Programming Languages:** Java, Python, C, C++, JavaScript, SQL
- **Frontend Development:** HTML5, CSS, React.js, Bootstrap, Responsive Design
- **Backend Development:** Node.js, Express.js, RESTful API Design, Authentication (JWT, bcrypt.js)
- **Databases:** MongoDB
- **Frameworks & Tools:** IntelliJ IDEA, VS Code, npm, Git, GitHub
- **Software Engineering Concepts:** OOP, DSA, DBMS, OS

Projects

iNotebook – MERN Stack Personal Notes App

- Built a secure, full-stack **note management system** using **MongoDB**, **Express.js**, **React.js**, and **Node.js (MERN)**.

- Implemented **JWT authentication** and password encryption for secure user access.
- Designed a responsive UI with React Hooks, Context API, and Bootstrap.
- Deployed on **Render** with Git-based CI/CD workflow.

Currency Converter(javascript)

- Developed a **Currency Converter application** that enables real-time conversion between multiple global currencies.
- Integrated **ExchangeRate API** for fetching live currency rates and Python for data processing and UI logic.
- Enhanced user experience by providing accurate, up-to-date conversion results with an intuitive interface.

Online Movie Ticket Booking System

- Created a fully functional web application using **HTML, CSS, and JavaScript** for online ticket booking.
- Implemented dynamic seat selection, payment simulation, and theater management.
- Enhanced performance through optimized DOM manipulation and responsive layouts.

Hospital Appointment System

- Designed and developed a full-stack hospital appointment management system using **React.js, Node.js, Express.js, and MongoDB**.
- Implemented **JWT-based authentication and role-based access control** for Admin, Doctor, and Patient modules.
- Enabled patients to **book, reschedule, and cancel appointments** with real-time status updates.
- Built an **admin dashboard** to manage users, approve doctors, and monitor appointments.
- Integrated a **notification system** to inform users about appointment confirmations and status changes.

Achievements

- Winner – “Brain Bytes” Inter-College Coding Quiz (1st among 60+ participants).
- Winner – C Programming Quiz Competition (1st among 45+ students).
- Solved **250+ DSA problems on LeetCode** (85% accuracy, 50-day coding streak,100-day coding streak).
- Ranked in the top 10% of consistent coders on LeetCode.

Certifications

- **Artificial Intelligence** – Great Learning (Python, Machine Learning Basics)
- **AI Generative Certification** – Infosys Springboard (Prompt Engineering, LLMs)
- **Drone Bootcamp** – IIT Mandi (Autonomous Control, Sensor Integration)
