Career Objective

Computer Science undergraduate with hands-on experience in **MERN stack development**, AI-powered applications, REST APIs, authentication, and database management. Strong foundation in **Data Structures and Algorithms**, seeking a **Full Stack/SDE role** to build scalable, secure, and user-focused software solutions.

Education

B.Tech in Computer Science and Engineering

COER University, Roorkee

Jul 2023 – Jul 2027

CGPA: 9.12 / 10.0

Coursework: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks

Class XII – Shardein School, Muzaffarnagar

2023 — 78%

Class X – Shardein School, Muzaffarnagar

2021 — 89%

Experience

Software Development Intern

Jun 2026 – July 2026 **JSL Works Pvt. Ltd.**

- Contributed to the development of the **Smart Internship Portal** by implementing features across **frontend and backend** components.
- Developed and integrated **REST APIs**, implemented **JWT-based authentication**, and integrated **AI/ML capabilities** into application workflows.
- Collaborated with the development team to troubleshoot and fix bugs, resolve technical issues, and improve the **stability and reliability** of the application.

Projects

AI-Powered Job Portal

Jan 2025 – Jun 2025

GitHub — Live Demo

- Built a **MERN stack job portal** with **3 user roles** and **10+ REST APIs**, secured using **JWT** and **Google OAuth 2.0**.
- Integrated **Groq AI (Llama 3)** for resume analysis, job matching, and cover letter generation to automate key recruitment workflows.
- Implemented **role-based dashboards** for Students, Companies, and Admins with job posting, application tracking, and user management features.
- Deployed on **Render**, **Vercel**, and **MongoDB Atlas**; applied the **Middleware Pattern** for authentication and RBAC.

Hospital Appointment System

Aug 2024 – Dec 2024

GitHub

- Developed a **full-stack healthcare platform** (React.js, Node.js, Express.js, MongoDB) managing **3 user roles** with robust auth and access control.
- Implemented **JWT + Google OAuth 2.0** and **RBAC** for Admin, Doctor, and Patient, reducing onboarding time by **40%** via OAuth login.
- Implemented appointment scheduling with conflict detection, preventing double-booking of doctors for the same time slot.
- Built a **real-time admin dashboard** to manage users, approve doctors, and monitor **100+ appointments**.

Technical Skills & Soft Skills

Languages: Java, C

Frontend: HTML, CSS, JavaScript, React.js, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MongoDB Atlas, SQL

Cloud / Deployment: Render, Vercel

Authentication: JWT, Google OAuth 2.0

AI: Groq API, Prompt Engineering, Google Gemini (Foundational)

Tools: Git, GitHub, VS Code, IntelliJ, npm

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

System Design: HLD, LLD, SOLID Principles, Design Patterns, REST API Design, Scalability, Caching

Soft Skills: Communication, Problem solving, Time management, Leadership

Achievements & Certifications

- Solved **300+ DSA problems** on LeetCode, including **100+ medium-level** questions across Arrays, Strings, Two Pointers, Sliding Window, DP, Trees, and Graphs.
- Earned **Google AI Educator Badge** – Intro to Gemini (Foundational), Google AI Educator Series.
- Winner – **Brain Bytes Coding Quiz** (Rank 1 among 60+ participants).
- Completed **Drone Bootcamp (IIT Mandi)** – Autonomous control and sensor integration.
